# Aura RCT - Absorber

Aura Absorber is designed for environments that require a discreet, durable, high-performance solution. Aura is designed to have the maximum effect as possible with minimum interference in terms of design and practicality.

The most common ocean pollution, PET plastic bottles, can be recycled into a hard wearing flexible acoustic material with exceptional performance. Aura is made from a 100% recyclable high-performance PET core, available in a range of fabric finishes.

Aura Absorber can be used as drop ceiling tiles, or installed on walls and ceilings using standard panel installation systems or adhesive.

Aura is available in three sizes, and in two different thickness': 30mm for more discreet applications, and 45mm when high performance is required.
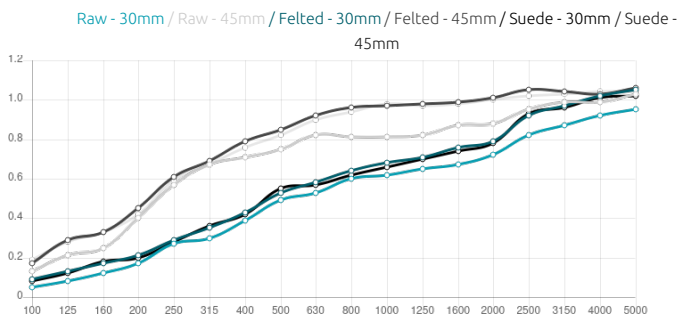

Features

Type:
Absorber

Absortion Range:
350 Hz to 8000 Hz

Acoustic Class:
B | (aw) = 0,85

Recommended for

- Office meeting room
- Conference room
- Open workspace
- Lobbies

Performance

Raw - 30mm / Raw - 45mm / Felted - 30mm / Felted - 45mm / Suede - 30mm / Suede - 45mm

Recycled PET absorption - Class 1 product according to the OEKO-TEX@ Standard 100.

Dimensions:
Aura RCT Absorber | 595x1190x30mm*

* The PET core is a material made entirely from recycled PET plastic, that undergoes an environmentally-friendly transformation process into the non-woven acoustic core we use in this panel.
To keep this process as efficient as possible, the thickness of the product may vary slightly (±3mm).
